

ATTRACTIONS AT THE UTAH PRODUCTS AND FOOD SHOW

The annual Utah Products and Food show opened at 4 p.m. yesterday, in the Parry building. The show is being held under the direction of F. W. Whitcomb, secretary of the Ogdene Retail Merchants association.

Probably the most interesting feature of the affair, to both old and young, is an exhibition of the Panama Canal, in miniature, which Manager Whitcomb has secured as a special attraction. Every detail of the canal is shown, with the boats sailing through and the locks in action. A good idea of the immensity of the great work is had from a view of the miniature, but in addition, as a feature of much educational value, explanations of the workings are given by a lecturer. The lecture includes a review of how the canal came to be built, of the great difficulties that had to be surmounted in the way of sanitation, conditions in the canal zone before the work started and at the present time and of the problems of construction that were met and overcome by the American engineers. To persons who had not previously seen the workings of locks, this feature proved especially interesting.

The pure food and Utah products displays were all in place last night and as a whole are well up to the average of other shows. Prominent among them is the display of the huge Williams Candy Company, which occupies one of the east windows of the store room and a centrally located booth inside. The window display is of "Utahna" chocolates and that of the booth, which is decorated in purple and white and inclosed with lattice work, is made up of different sized boxes of "National" chocolates, the latest product of the company. The "Nationals" are in red, white and blue boxes.

Another attractive booth is that of the McDonald Candy company. It is artistically decorated in pink and is a display of "Hazel Dawn" chocolates is made.

The John Scowcroft and Sons Company make a showy exhibit of "Never Rip" work clothes, including overalls, corduroy, whipcord and khaki suits. A display of knit underwear is also shown as the product of the Scowcroft knitting factory.

The Utah Canning Company, cup winners for the past three years, with their display of Pierce's pork and beans, catsup and sauerkraut, has a large booth on the north side and an attendant dispenses samples of the canned goods.

The exhibits of the Blackman and Griffin Commission company and the De Laval Cream Separator company are well arranged. In the latter a demonstration of the cream separator is given and in the former is a display of the finished product, butter and cheese.

The Superior Horse-radish and Pickle company has a fine display of bottled horse-radish and many varieties of sour, sweet and dill pickles.

The exhibit of the Crystal Bottling Works is attractively set and includes all flavors of soda water, with mineral water and cider also shown.

The "Jello" and Baker's Chocolate company occupy adjoining booths on the north side of the show room with displays of their well known goods.

The booth of the Borden Condensed Milk company is decorated with holly arranged in an artistic way and, in addition to the display of the finished product, a pasture with miniature cattle is shown. The Utah Sugar Manufacturers Association—the Utah Idaho and Amalgamated Sugar companies, has a large booth in which is shown beet sugar in all stages, from the beet to the granulated and pulverized product.

The Becker Brewing and Malting company has an attractively placed display of "Becker's best," near beer and porter, in pint and quart bottles. "Becker's Best" pennants also lend attraction to this display.

In the line of art, the Noggle studio has a worthy exhibit of photographs. In this line a display of drawings and paintings done by students of the Ogdene High and Junior High schools are shown. In connection with a display of sewing and bottled fruits from the domestic arts and science departments. The manual training department of the high school is also represented with wood work.

Music is being furnished for the show by the Farnlund orchestra and a Glass Blowers and Palmistry booth are among the special attractions.

IMPROVEMENTS ARE MADE DURING THE YEAR

After completing his annual report Saturday morning, Engineer H. J. Craven vacated the city engineering department and turned over the affairs of the office to his successor, Washington Jenkins. Mr. Craven had occupied the position for two years.

The report of Mr. Craven is a resume of the things done in the department during the past year. It is claimed that the cost of operation has been from 25 to 60 per cent less than in previous years, as far back as 1908. The report consists of 31 typewritten pages.

The engineer states that a better water supply was furnished the city and that an emergency connection made between the city pipe line and that of the Utah Light & Railway company in Ogden canyon. There was an extension of the Wheeler creek pipe line, places the intake of the city water supply beyond the contaminating influence of campers. South Fork reservoir fillings were attended to. Progress was made by the Ogden River Reservoir company, under the par-

tial direction of the city, in stripping of bedrock and getting ready for actual construction work in South Fork. There was an extension of sewers, sidewalks, water mains and plans made for the building of storm sewers in the city.

The total cost of public improvements for the year are given at \$233,506.54. For private improvements in the erection of homes and business houses there was spent in the year \$807,811, besides \$86,500 for improvements at the state institutions, which are considered as improvements in the city. Nearly three miles of surveys for new streets were laid out. Many new electric lights were placed on the streets. The report states that the city now has 365 street lights.

Building permits issued during the year were 262, of which 235 were for dwellings and 27 for business houses. There were issued 322 plumbing permits and 253 for electric wiring; 335 sewer connections were made. House numbers issued were 55.

The report shows that there are now in the city 2,379 sewer connections.

The total cost for department operations for the year was \$7,092.65, and the fees collected amounted to \$1,293.85, leaving a net cost of \$5,798.80. The total cost for street lighting during the year was \$15,610.15.

The total cost of improvements in detail was as follows:

Paving	\$115,937.35
Curb and gutter	20,961.49
Sidewalks	15,946.07
Sewers	17,537.00
Opening streets	138,597.39
Bridges	8,526.67
Water supply	4,188.52
Cemetery	1,812.35

RELIEF SOCIETY OF OGDEN STAKE CONFERENCE

The quarterly conference of the Relief societies of the Ogdene stake will be held at the Sixth ward chapel at the corner of Madison avenue and Third street, on Thursday of this week (the 22nd). There will be two meetings held, one at 10:30 in the morning and the other at 2 o'clock in the afternoon. All members of the Relief society are urgently requested and others are invited to attend.

Deaths and Funerals

HANSEN—The funeral of Gustave Hansen will be held at the Lindquist funeral chapel tomorrow at 2:30 p.m. Rev. W. W. Fleetwood will officiate. The Engles and Sons of Hermann lodges will take part in the service and members of the two will act as pallbearers. Interment will be made in the city cemetery.

MESSENGER—The funeral of Mary M. Messenger will be held yesterday at Clearfield, Bishop J. G. Wood presiding. The speakers were Bishop Wood, William J. Sessions and Elijah A. Larkin. Special music was furnished by the ward choir and Lillian Guthrie. Interment was made in the Clearfield cemetery.

GRUE—Mrs. Lenora Manning Grue, wife of Joseph Grue and daughter of Joseph Manning and Josephine Gwilliam Manning, died at the home in Hooper at 12:30 last night of stomach trouble. Mrs. Grue was born at Hooper and is survived by her husband, father, mother, and the following brothers and sisters: Joseph, David, Benjamin, Wallace and James Manning of Hooper, George Manning of Ucon, Idaho, Alfred Manning, now in the Western States mission, and Mrs. Mabel Manning Wadsworth of North Ogden. The funeral will be held at noon Thursday in the Hooper meeting house with Bishop J. R. Beus presiding. Interment in Hooper cemetery.

CITY RECORDER MAKES REPORT

In his annual report to the city board of commissioners this morning, City Recorder George A. Seaman gives in detail the affairs of his office during the year 1913. His report shows that the expenses of the office have been about \$400 less for the year than for the preceding year. He recommends that the city recorder be empowered to collect fees for transacting and certifying records.

The report follows:

"Licenses have been issued as follows:

Miscellaneous	203
Liquor Licenses	1
Brewery	1
Club	4
Wholesale	5
Retail	35

"The total expense of my office, including salaries, is \$2,414.05, being \$400.97 less than for the year 1912. "This office should be empowered to collect fees for the transcribing of documents, and for such other service as the commission should decide as advisable, and I would therefore recommend that a schedule of fees be prepared and the city recorder authorized to collect the same."

"ADELE" AT ORPHEUM TONIGHT

What is said to be one of the prettiest and most delightful productions of this season is the new operetta, "Adele," which comes to this city tonight at the Orpheum. When it was in New York the first time, it scored an instantaneous success. The cast consists of none but well known artists. It is said to be collectively and individually the best singing organization that has toured this country since the days of the famous "Bostonians."—Advertisement.

MINE OWNED BY OGDEN MEN VERY RICH IN GOLD

Few people in southern Utah realize the wonderful wealth of Bull valley, the new gold mining district being developed in Washington county. Free gold ore is being mined there that makes the stories of Cape Nome and the palmy days of California fade away as effete and obscure vision of a prosy past, according to the account given by Will C. Macfarlane, who recently came up from the working mine in the Cedar Record. He had samples of free gold rock over which the yellow metal was plastered in generous flakes, and he stated that these were commonplace when compared with some of the high grade samples taken out by the Bull Valley Gold Mines company. The upper workings in the Hamburg claim, owned by this company and consisting of a tunnel 500 feet long, from which a winze forty feet deep has been sunk, are so rich that they are constantly guarded and only trusted employees are permitted to enter. Some almost pure gold nuggets are found.

The upper workings are all in ore, which assays, according to various samplings, from \$80 to \$2500 per ton. The fissure vein in which the values are found varies in thickness from a few inches to more than fifteen feet in thickness. As soon as sufficient ore is blocked out to justify the property will be equipped with a free milling plant, the ores being subject to this form of treatment.

In addition to the holdings of the Bull Valley Gold Mines company, there are many other good properties in Bull valley. In fact, practically the entire country has been located and one would require a horse to get beyond the stakes. In all about forty men are working or prospecting in the valley.

R. G. McQuarrie, one of the pioneers in the district and a stockholder in the B. V. G. M. company, also has some valuable properties of his own which he is developing independently. Among others his Le Var claim has an excellent showing.

A number of other properties are developing in splendid shape and the indications are that Bull valley may prove to be one of the richest articles on the continent.

Bull valley is situated about twenty miles south from Enterprise, in Washington county, and is most easily accessible from that point.

CITY HOLDS ON TO THE MONEY RETAINED AS GUARANTEE

Before the board of city commissioners this morning, Mayor Fell reported adversely on the petition of the P. J. Moran Construction company for the refunding of money held by the city as a guarantee for the proper building of paving in districts 102, 103, 105 and 106, in the sum of \$16,465.43, claiming that it would be a dangerous precedent to establish. The board adopted the Mayor's report and the fund will not be returned until the time of the guarantee expires.

Auditor A. F. Larsen reported that there is due in interest on bonds the sum of \$1,126.12 and the board authorized him to draw a warrant for the amount. The interest is payable February 1.

The bond of city treasurer Wallace Foulger in the sum of \$175,000 was approved. Three surety companies have furnished the bond as follows: American Surety company, \$45,000; National Surety company, \$70,000; and the United States Fidelity company \$60,000.

The payrolls for the engineering department were allowed and the auditor instructed to draw warrants for the several amounts as follows: T. J. Gilman, chief manager, \$60.18; W. S. Craven, Mr. Craven, \$24.50; W. F. St. John, inspector, \$31.11; and D. A. Scott, chairman, \$4.

SUSIE B. NAISBITT SUES FOR DIVORCE

Susie B. Naisbitt, whose maiden name is Susie B. Dorey, has commenced divorce proceedings in the district court against Fred P. Naisbitt on the grounds of cruelty and failure to provide.

According to the petition of Mrs. Naisbitt, the events leading to divorce proceedings came rapidly. She says they were married in January, 1913. In April, Mr. Naisbitt kicked her, abandoned her in May and June and in October struck her with his fist.

The plaintiff asks for the community property, costs of suit and attorney fees and reasonable alimony. She also asks for the restoration of her maiden name and an order restraining the defendant from disposing of any of the property.

FIELD JUDGE AS OFFICIAL. New Haven, Conn., Jan. 20.—In discussing the meeting of the football rules committee in New York next month, Walter Camp, the Yale football authority, and a member of the committee, said last night that he was in favor of the introduction of the field judge as an official. The game itself has reached such a high state of perfection he said, that there is a little room for improvement in the rules.

der the forward pass and quick kick are beginning to take on such a complicated variety that two officials can no longer be expected to cover every point.

TAYLOR YOUNGEST GOVERNOR. Trenton, N. J., Jan. 20.—Leon Taylor, the youngest man who ever occupied the governor's chair, relinquished his past in the executive office at midnight and left the stage set for the inauguration of James Fiedler as governor at noon today.

FIRST MALE CHILD BORN IN IDAHO VISITS OGDEN

After a long absence, Hyrum Frew of Idaho Falls visited Ogdene relatives and friends yesterday. He renewed many old acquaintances and stated that it was the most enjoyable visit.

Mr. Frew left Ogdene about 27 years ago when it was a mere village, and he marks with much pleasure and surprise the progress made since that time. He and "Billy" Wilson worked together in the canyon, getting out timber, and he says that as he rode over the canyon boulevard yesterday in an automobile he vividly recalled the conditions of the road when he "logged" over. The Hermitage and surroundings were revelations to him and he had nothing but words of congratulation for his old friend "Scott" as he called Mr. Wilson.

Mr. Frew says that he was the first white male child born in the state of Idaho. That was in 1860 at Franklin and the domicile in which he was born was a wagon box. He has lived in the Gem state since that time, except when he was a resident of Ogden.

Farming has made more rapid progress, the visitor contended, than most any other industry in Idaho, and today there are many large farms. He, in company with others who have formed a company, farm about 10,000 acres of dry land. His share of the crop in 1913, was 9000 bushels of wheat. The plowing, planting and harvesting has been done with large steam traction engines, but Mr. Frew says that mules are now taking the place of steam.

Mr. Frew says that fifty good mules will do much more on a dry farm than a sixty-horse power engine, as they can be worked in 8 and 10 mile teams and if one section is out of commission the others continue the work of planting or harvesting. On the other hand, when the machinery is attached to a steam engine gets out of commission, the entire working force is at a standstill and he says that the engines and other machinery on the dry farms frequently break down after the first year of use. He is of the opinion that it will be only a few years when mules will be all the farm work.

Society

WALTER W. FIFE ENTERTAINS. One of the most interesting events of last week was the given by Mr. Walter W. Fife at his home, 2122 Adams avenue. The home was prettily decorated for the occasion with various potted plants and cut flowers.

The guests were entertained with piano solos rendered by Mr. LeRoy Leischman. Miss Ethel Layne furnished some beautiful vocal solos accompanied by Mr. Leishman. Other guests also took part in the music, making the evening very entertaining. The host showed the guests a general display of his work in taxidermy which was intensely interesting.

At 10:30 covers were laid for the guests and a dainty three-course luncheon was served by the host, assisted by his sister, Mrs. W. S. Fife of Nevada. When the guests were seated flash light pictures were taken of them and each guest was given a picture as a remembrance of the affair. At a late hour the party dispersed having had a good, jolly time.

Those participating were: Misses Reta Ensign, Violet Anderson, Golda Engstrom, Ethel Layne, Ruth Why, Flonell Taylor, Mrs. W. S. Fife, Messrs. Lorenzo Williamson, Joel Boyce, LeRoy Leischman, Joseph Fife, W. S. Fife and Walter W. Fife.

ENTERTAIN THEIR FRIENDS. Last Thursday evening Mr. and Mrs. John Darney delightfully entertained a party of friends at their home in Marriott.

At High Five prizes were won by Mr. Ray Cowan, Edward Erving, John Darney, Mrs. Shurtliff, Mrs. C. Mortensen and Mrs. Ray Cowan. Music and dancing were features of the evening's entertainment and a temptingly prepared supper was served by the hostess.

The guests declared their host and hostess charming entertainers.

CADET "HOP" POSTPONED. The "Cadet hop" which was to be given by the cadet battalion of the Ogdene high school on Washington's birthday has been postponed until March 6, to accommodate Governor Snyder and his staff who could not attend if given on the former date. In-

ORPHEUM TONIGHT THE BIGGEST MUSICAL SUCCESS OF THE CENTURY "ADELE"

A French Operetta in Three Acts. Book by Paul Herve. Music by Jean Biquet. A Real Musical Comedy with a Real Plot. 22—SONG HITS—22 20—ORCHESTRA—20 "A MUSICAL TRIUMPH"—All Critics. PRICES 50c to \$2.00. SEATS NOW SELLING.

If you are dissatisfied in any way with the store you are patronizing now, give us a trial. We will give you Fresh Groceries, Quick Service and Courteous Treatment.

Steele-Carlson Grocery Company

350 25th St. Telephone 94.

We Are Open for Business and We Are Already Doing Business Because

We have a new store and a new stock, which means nothing but Fresh Groceries.

stead of being held in the school auditorium the affair will be given in the Colonial hall which is much larger and better adapted to the maneuvers of the cadets, besides accommodating more dancers.

Maneuvers consisting of a review by the governor and his staff, army signaling, bayonet exercises, semaphore signaling, marching, exhibition drill, manual of arms and loading and firing will be carried out. The cadets have been planning on the affair for some time and details are almost completed. About 1000 invitations will be sent out and general admission will be \$1.50 with admission fee of 75 cents for the cadets' parents.

The floor committee has announced that no improper dancing or tangling will be tolerated. The committee chairmen in charge are as follows: floor, Lieutenant S. Winters; music, Lieutenant, George Buck; refreshments, Lieutenant William Hibbs; decorative, Captain F. King; printing, Captain B. DeVeto.

MEET TOMORROW. Members of the First Ward W. C. T. U. will meet with Mrs. G. W. Welch, Wednesday afternoon at 2:30 at her home, 3003 Grant avenue.

ELECTION OF OFFICERS. Mrs. S. F. Lawrence will be hostess to the Christian Link circle tomorrow afternoon at her home, 2663 Van Buren avenue. After the annual election of officers dainty refreshments will be served.

POTATO PRODUCTION OF THE UNITED STATES

Recent discussion with reference to importations of potatoes into the United States lend interest to a statement compiled by the bureau of foreign and domestic commerce of the department of commerce, showing the imports and exports of this class of merchandise during a long term of years. It shows that the largest importation of potatoes in any single year occurred in the fiscal year of 1912, when the total quantity imported was 13,750,000 bushels, the next largest being in 1909, 8,333,333 bushels, and in 1902, 7,665,556 bushels. The total quantity imported since 1900 is practically 37,000,000 bushels and the quantity exported in the same period 16,000,000 bushels, the total production in the United States during that period having been over 4,000,000,000 bushels, or an average of approximately 300,000,000 bushels per annum, the figures of recent years averaging about 300,000,000 bushels per annum except in years of abnormally short crops.

Potato production in the United States is small compared with certain other countries having a much smaller area and much less population. The product of Germany in 1911 was 1,263,000,000 bushels; Austria, 426,000,000; France, 424,000,000, and the United States, in the year in question, 293,000,000 bushels. The production of the United Kingdom, from which our chief importations are drawn, is considerably less than that of the United States, having been 281,000,000 bushels in 1911, of which 138,000,000 were produced in Ireland, 100,000,000 in England and 35,000,000 in Scotland.

The farm value of the potato crop of the United States in 1913 is stated by the department of agriculture at \$228,000,000, a larger total than that for any earlier year except 1911, which was \$234,000,000. The United States crop of 1913 supplied an average of three and one-half bushels per capita, while that of 1912, the high record year in production, gave an average of four and one-third bushels per capita. The production of 1913, 332,000,000 bushels, was larger than in any other years except 1912, which showed a total of 421,000,000 bushels; 1910, 409,000,000; 1909, 377,000,000, and 1904, 333,000,000.

Curiosity. "Beware of the counterfeit \$50 notes," says Uncle Sam, "it must be pleasant even to look at an imitation. If Uncle Sam will show us some real ones, perhaps we'll know how to guard against the imitations."—Salt Lake Tribune.

Suspicious. "So you refuse to patronize that Chinese laundryman?" "Yes. The things he wrote on the piece of paper he handed me may be complimentary, but they didn't look it."

Love in a Hickory-nut. A hickory-nut is named, then cracked. If the kernel is withered, love has grown cold; if it is broken, the loved one is untrue; if it comes out whole, all is well.

Taking It for Granted. "Is she very pretty?" "I've never seen her, but I don't suppose so, because I've been told she's a great help to her mother."

Will Surely Get It. Do not ask opinions of candid people unless you are braced for a jolt now and then.

MEXICAN ARMY AT FORT BLISS

U. S. Government Holding Refugees on Footing of Prisoners of War.

OFFICER DUMBFOUNDED

Situation Unprecedented in History—Soldiers Grateful for Kind Treatment of Americans.

El Paso, Tex., Jan. 20.—The 3300 Mexican federal soldiers, six Mexican generals and 1369 women and children who sought asylum in the United States after they were driven out of Ojinaga, Mex., by General Francisco Villa's rebel forces, arrived in El Paso today and were formally interned at the Fort Bliss military reservation. They are to be held by this government indefinitely on the footing of prisoners of war.

Arriving in ten trains from Marfa, Tex., the refugees were taken immediately to Fort Bliss, where they were put in a camp enclosed by a barbed wire fence and guarded by United States troops.

General Mercado Dumbfounded. "I am completely dumbfounded by the unusual position we are in," said General Salvador Mercado, former commander of the federal army in northern Mexico. "It is something unprecedented in the history of our division interned on foreign soil. What is to become of us, I don't know. We shall wait and see."

General Mercado was joined by his wife and three sisters-in-law who will remain with him in camp.

Colonel Frederick Perkins of the 20th infantry was put in charge of the refugee camp under direction of Brigadier General William L. Scott.

Soldiers Show Gratitude. General Mercado told Colonel Perkins that the Mexican soldiers would do everything in their power to show their gratitude to the United States. He then ordered all the refugees to dig ditches and help put up the 1000 or more tents. None of the foreign soldiers or any of their officers will be permitted to leave the barbed wire enclosure.

Each train of refugees was run into the camp on a spur. The unloading presented varied and animated scenes. With the women and disarmed Mexican soldiers there tumbled out dogs and fighting cocks saved from the battle of Ojinaga and lovingly carried on the long march. One family even unloaded a burro packed with domestic utensils. The bedraggled and exhausted picture of a whole village of people suddenly dumped on foreign soil was brightened by brilliantly covered blankets and shawls of the women.

The Mexican generals appeared dazed and speechless by the spectacle, but soon they joined with the American officers in putting the camp in order.

Sightseers from El Paso were just outside the barbed wire stockade.

UTAH MAY RECEIVE \$88,750 FOR ROADS

Washington, D. C., Jan. 20.—A supplemental report on the bill to appropriate \$25,000,000 a year for federal aid to road construction in the various states was filed in the House yesterday by Representative Shackelford, chairman of the House rules committee. A special rule making this bill in order as an amendment to the post office appropriation bill now before the House probably will be acted upon tomorrow by the rules committee.

The bill proposes to divide the appropriation among the states in proportion to the rural delivery routes and post roads in each state. Tables setting forth the mileage of these roads in each state were included in the report filed today.

Another table gave the maximum amount of federal money each state might receive under the provision of the bills. This table includes the following figures:

Arizona	\$55,000;	Arkansas	\$388,750;
California	\$503,750;	Colorado	\$1,201,250;
Idaho	\$112,500;	Illinois	\$1,201,250;
Indiana	\$1,016,100;	Iowa	\$395,000;
Kansas	\$773,750;	Michigan	\$923,750;
Minnesota	\$746,250;	Missouri	\$1,085,750;
Montana	\$128,750;	Nebraska	\$506,250;
Nevada	\$42,500;	New Mexico	\$100,000;
North Dakota	\$282,500;	Ohio	\$1,295,000;
Oklahoma	\$572,500;	Oregon	\$312,500;
South Dakota	\$298,750;	Utah	\$88,750;
Washington	\$262,500;	Wisconsin	\$752,500;
Wyoming	\$65,000;		

MEXICAN METHOD OF FIGHTING. You must not think of a Mexican

battle, though, as being like an engagement between European armies. Troops are not handled in masses at all. There is little strategy and next to no tactics. Let me illustrate this by what I managed to see of the two days' attack upon Monterey. It was delivered by a force of between 4,000 and 5,000 insurgents, against whom the commandant of the garrison could only muster some 800 or 900 regulars, with a few hundred volunteers. In the result, these volunteers did pretty well, but at the start the citizens were more afraid of them than of the rebels, since most of them were holding a rifle for the first time. When I got up on a hill that first morning and saw how the situation lay, I had no doubt whatever that within twenty-four hours the constitutionalists would capture the city. I met a German later in the day, a shrewd student of war, he was entirely of my opinion, and expected the Federal troops to march out during the night, leaving the place to be occupied without a struggle.

My German friend ought to have known better, for he has lived in Mexico all his life. My error was pardonable. I had so far seen only skirmishes. Now I discovered that Mexican battles are simply a series of small fights, fought on skirmishing lines. A general advance could not have been kept back, not even by the machine guns, which tap-tapped methodically from the Federal positions. But there was no general advance. Small bodies of fifteen or twenty operated singly, so far as could be seen, without any co-operative plan. The organization of the rebels is by "commandos," as it was among the Boers.—Correspondent London Mail.
